

HERE Is the List of Flyers.

Entries For the Fountain Park Races.

Every Class Well Filled With Good Ones.

The list of entries for the race meet which will be held at Fountain Park next week is completed. There are over one hundred entries and among them will be found many that are familiar to local horse lovers. The list shows that there will undoubtedly be some warm brushes and fast time.

Of the local horses the first one to appear will be Laura Backus, owned by E. J. Viall, and Grace Elyria, E. M. Ganyard's mare. They will be in the 2:23 trot. C. L. Stull's Brunhilda will appear in the 2:24 pace. On Thursday Brooklawn, the veteran campaigner, will come out in the 2:17 trot. Belle S., owned by George Hartman, Tony B., owned by W. C. Baum, and Lottie Baird, owned by G. Burton, will try to land the 2:20 pace. On Friday Baby Pilot, C. L. Stull's clever little gray mare, who, as a "green" entry, landed second money last year, will go after the 2:30 pace, and there will be few surprises if the little gray wins the purse. Perry, owned by Wm. Richardson, is entered in the 2:26 trot. The list of entries follows:

OUR NATIONAL DISEASE

Caused by Coffee.

Physicians know that drugs will not correct the evils caused by coffee, and the only remedy is to stop drinking it. Dr. W. J. Allison, of Heber, Ark., says: "I have been a coffee drinker for 50 years and have often thought that I could not live without it, but after many years of suffering with our national malady, dyspepsia, I attributed it to the drinking of coffee, and after some thought, determined to use Postum Food Coffee for my morning drink. I saw that Postum was made carefully with directions, and found it just suited my taste. At first, I used it only for breakfast, but I found myself getting so much better, that I used it at all meals, and I am pleased to say that it has entirely cured me of indigestion. I gained 19 pounds in 4 months, and my general health is greatly improved."

I must tell you of a young lady in Illinois. She had been in ill health for many years, the vital forces low, with but little pain. I wrote her of the good that Postum did for me and advised her to try it. At the end of the year, she wrote me that Postum had cured her, and that she had gained 40 pounds in weight and felt like herself again."

MIDSUMMER SUFFERINGS.

Palne's Celery Compound

Quickly Dissipates Tired Feelings and Gives New Life to the Weak, Nervous, and Debilitated.

Tired, languid and despondent feelings prevail to an alarming extent during the heated term of summer. Such feelings indicate depleted blood and a feeble condition of the nervous system. This is just the time when Palne's Celery Compound is needed to build up flesh and muscle, brace the nerves and clear and strengthen the brain. Sick headaches, nervous prostration, sleeplessness and a general feeling of mental and physical depression by which life is made almost intolerable in the hot weather, can all be speedily banished by the use of a bottle or two of Palne's Celery Compound, nature's summer renovator and strength-giver.

Palne's Celery Compound never fails to repair the wasted and worn-out tissues; it calms and perfectly regulates nervous action and brings that sweet and restful sleep that makes life happy.

The medicine that in the past has done such marvelous things for others, is the kind you should use at this time.

ALL COLORS OF THE RAINBOW AND THEN STILL MORE

More Matches Are Made In Barberton Than the Thoughtless Mortal Ever Supposes.

(Special Correspondence.)

Barberton, July 26.—Few persons viewing the Diamond Match company's plant from the exterior have any conception of the business carried on there. Not only the match making business proper, but all the auxiliaries to the business, such as the making of the paper boxes in which matches are packed, the printing of the same, machinery repairing, etc., is done within the walls of this establishment, the largest match plant in the world. Beside this, rubber type is made here, not only for use in this plant, but for the various foreign plants owned and operated by the Diamond Match Co. in England, Ireland, Germany, Italy, South America and South Africa. All the inks used in the printing are made in the laboratory, and the printing presses and many of the matchmaking machines are inventions of the Diamond Match Co.

There are 20,000,000 feet of lumber on the grounds at all times and this comes from the saw mills of the company of which there are 3,260. A new mill has just been established at Ashol, Mass., from which the material used in the best grade of matches comes. The company also has a number of saw mills in the south, but the best lumber comes from the New England mills.

Three hundred and sixteen different brands of matches are made, including matches with long and short sticks; heads of all the colors in the rainbow and a few of the new shades thrown in; matches in big boxes and matches in little boxes; protection matches, the ends of which are chemically prepared with a fire-proof solution, making the burning of fingers an impossibility; wax matches, which are liked by some smokers, matches in books for advertising purposes, some of these having heads in gold and silver color. Sometimes the match sticks are colored; in fact any kind of a match which the purchaser may fancy can now be had upon order.

PROHIB. ALLIANCE

Organized in Barberton With 24 Members.

(Special Correspondence.)
Barberton, July 26.—A Prohibition Alliance was organized Tuesday evening at the home of Mr. J. C. Sults, and the following officers elected: President, Rev. S. E. Haseg; vice president, V. S. Sweeney; secretary, J. C. Sults; treasurer, Rev. R. M. Yoder. Fifteen attended the meeting and 24 names of membership enrolled. It is expected that the organization will be very active in prohibition work.

THE SOCIAL SIDE.

A Little Party and Some Personal Notes.

(Special Correspondence.)
Barberton, July 25.—Mr. and Mrs. L. E. Foght, of Barberton, Miss Daisy Lodge, Miss Laura Lodge, of Silver Lake, Miss Hazel Hale, Mr. John Johnson, of Cuyahoga Falls, and Mr. F. R. Hale, of Chicago, were entertained at dinner at the Barberton Inn by Mr. S. M. Chandler, Wednesday evening.

Miss Nora McFarlin, of Medina, is the guest of Miss Edna McFarlin. Mr. and Mrs. F. A. Hale and Miss Edna McFarlin, left Wednesday for Medina. Miss McFarlin will visit there for the next ten days.

Messrs. E. E. Eberle, C. J. Huntberger, A. F. Royal and M. R. Goddard of Orrville, registered at the Barberton Inn, Thursday.

PROOF AT ANY TIME

By the Evidence of Akron People.

The daily evidence citizens right here at home supply is proof sufficient to satisfy the greatest skeptic. No better proof can be had. Here is a case. Read it:
Mr. C. W. Thomas, of 102 Raymond st., says: "I have been a great sufferer from lumbago and other consequences of inactive kidneys. I have had such sudden attacks that I was unable to pick up my grip, and despite the use of innumerable remedies and the wearing of well recommended plasters, I was unable to check the attacks, let alone root out the cause until I procured Doan's Kidney Pills at J. Lamparter & Co.'s drug store and took a course of the treatment. At present, and it's a month since I commenced the use of Doan's Kidney Pills, I have discarded plasters and follow my occupation without being constantly afraid of a twinge or a kick in my back. I have so much confidence in Doan's Kidney Pills that I insist upon to use them. They will not be disappointed in the result."

Sold by all dealers. Price 50c. per box. Foster-Milburn Co., sole agents for the U. S. Remember the name Doan's and take no other.

The best match now made is of the new composition, which is not poisonous, and can be placed in the mouth with impunity. This composition was invented in France a year ago, and the patent was recently secured by the Diamond Match Company. In England there is a movement on foot to have Parliament order the discontinuance of the making of any other match.

"This match will, in time, supersede all others," was the statement made by one of the officials of the company.

The Searchlight is the largest match made by the factory here and is considered among the best. The wealthy people buy these almost exclusively.

The only machine for the making of wax matches is owned by the Diamond Match company and takes a roll of paper seven miles in length. This paper is prepared right here in the plant. All the board for book matches is made in the company's plant at Southford, Conn., and all paper used in the plant is made in the mills belonging to the company.

The match-making process is an interesting one. The boards are cut into blocks and fed into the machine where the wood is cut into a long strip of match sticks. From a long continuous chain it passes over the heating block, into the paraffine and over the wheels to dry. It is then returned to the front and pushed out in single matches into the boxes. It takes just 45 minutes for a match to go through the process from the block of wood to the finished match.

Two hundred girls are employed putting covers on the boxes and wrapping them into dozens. There are 1200 persons employed altogether in the Barberton plant.

The composition is made by a secret process and but one man is entrusted with the secret, he being one in whom the company has implicit confidence. Almost as interesting as the match-making process is the making of the boxes in which they are packed. A roll of white paper is fed into the machine and, at the end of one minute, 425 boxes printed and ready for use are turned out.

All machinery repairing is done in the repair room, which is equipped with all modern and up to date machinery and where 10 men are constantly employed.

The company looks after the health and general comfort of its employees. A physician is employed at a yearly salary to look after the employees, and not only are the teeth examined with care, but the general health as well.

Said one of the officials to a Democrat reporter: "Of course this is a great expense to us, but we find it pays for we get so much better service out of our employees when they are feeling well than when they are listless and half-sick."

There is a little room fitted up with couch, table and chairs, cheery and pretty, and neat as a pin, for use in case of accidents or sudden illness. Of this is a room fitted up with all things likely to be needed on the arrival of the physician.

There is a basement dining room where employees must eat their dinner, though the provisions are brought from home. Here coffee and soup is served to all free of cost. Before eating all employees are required to wash their hands and separate towels, which are used but once after washing are provided for each person. There is an inspector whose duty it is to see that this requirement is complied with.

Behind the buildings, hiding unostentatiously, are beautifully kept grounds ornamented with floral decorations of the most artistic design, meant for employees only.

There is little or no danger from fire notwithstanding the large amount of combustible material with which the buildings are filled, as the buildings are fitted out with the most approved automatic fire system and ten men are constantly on duty as firemen and do nothing else.

GOT A LECTURE

And Also a Fine of Two and Costs.

(Special Correspondence.)
Barberton, July 25.—Walter Keller departed from the straight and narrow path, Wednesday, and was brought into Police court on a charge of intoxication. Mayor Buel gave him the usual \$2 and costs with a temperance lecture on the side.

NEW TEACHER

Will Have Charge of the New Portage School.

(Special Correspondence.)
Barberton, July 26.—At the meeting of the Board of Education, Thursday evening, the resignation of Miss Anna McElhainey, teacher at the New Portage school, was accepted, and Miss McElhainey, of Nebraska, hired to take her place.

The contract for the alighting of a well at the West Barberton school was awarded to Reuben Snyder.

NAUGHTY PARA

To Smash the Dishes and Make So Much Trouble.

(Special Correspondence.)
Barberton, July 25.—Attired in a golden yellow head-dress of cotton, with lace embellishments, and a skirt of brown and silver thread she presented a picturesque, though woebegone appearance, when she appeared in Police court, Thursday morning, and wanted her husband, Para Meyer, arrested for smashing the dishes and breaking up the furniture. Marshal Ferguson went out and viewed the wreck after which Para was fined the costs.

STREET PAVING

May Be Completed Some Sweet Day by and By.

(Special Correspondence.)
Barberton, July 26.—The work of paving Tuscarawas ave., is again practically at a standstill and this time the fault lays with the N. O. T. company, at least that is what the City Engineer says. "The contractors could be laying brick now if the street car track was lined up," said he.

"PREPOSTEROUS"

Is the Story of Lake Anna's Disappearance.

(Special Correspondence.)
Barberton, July 26.—"The story which has been circulated to the effect that Lake Anna is disappearing, is preposterous and an injury to our city," said Postmaster J. Davies to a Democrat reporter, Friday. "The lake is the prettiest bit of scenery about Barberton, and its leading attraction for summer visitors, and there is as much of it there as there ever was."

When questioned on this subject, City Engineer Harry Alcorn said: "The lake is not disappearing, and I see no reason why it should not be just as it is now, years hence. Eight years ago, back in '94, when the course of Wolf creek was altered, and back water from the creek no longer emptied in the lake, the water in the lake fell four feet. Later when the Columbus Chemical Co. established its plant in Barberton, water was pumped from the lake in a test to learn whether the lake would supply the factory with water, and at that time the water fell two feet more. Since then, instead of disappearing, the lake has recovered the two feet lost at that time and is now as high as it ever has been since deprived of the backwater from Wolf Creek."
